ANTONY JENISH R

9361208994 | Antonylenish422@gmail.com | Nagercoil, Tamil Nadu | LinkedIn | GitHub | Portfolio

CAREER OBJECTIVE

Final-year Artificial Intelligence & Data Science student with hands-on exposure to Python, Machine Learning, Data Analytics, DBMS, and web technologies. Interested in developing practical AI and data-driven solutions while continuously improving technical and problem-solving skills.

EDUCATION

B.Tech - Artificial Intelligence & Data Science | Ponjesly College of Engineering | Final Year
Higher Secondary: 77.83% | SSLC: Passed

TECHNICAL SKILLS

Programming: Python, Java (Basics)
Backend / Frameworks: Spring 5 Basics, Spring Boot, Spring REST, Spring Data JPA
Web Technologies: HTML, CSS, React.js, TypeScript, Tailwind CSS, Vite
Database: DBMS, SQL
AI & ML: Machine Learning, Convolutional Neural Networks (CNN)
Data Analytics: Data Analysis, Excel, Power BI
Tools & IDEs: PyCharm, Jupyter Notebook, Git, GitHub
Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Communication, Quick Learning, Adapting
Languages: Tamil (Fluent) | English (Fluent)

PROJECTS

S Antony Travels - Premium Bus Booking (React.js, TypeScript, Tailwind CSS, Vite)
• Developed a modern, fully responsive bus ticket booking web application.
• Implemented interactive seat layouts, real-time seat locking to prevent double booking, and female safety logic.
• Integrated mock payment gateway, user dashboard, and live GPS tracking simulation.
• Live Demo: https://antonyjenish-r.github.io/BUS-BOOKING-WEBSITE/

AS Restaurant Website (HTML, CSS, AI Chatbot)
• Designed and developed a single-page restaurant website from scratch.
• Integrated an AI chatbot for interactive food-related responses. Focused on clean UI, simple navigation, and user-friendly interaction.
• Live Website :https://antonyjenish-r.github.io/AS-Restaurant-Webiste/

AEGIS – Intelligent Women Safety App | Hackathon Project (Won 2 Prizes)
Tech Stack: Flutter, Dart, Native Kotlin, Supabase (PostgreSQL), REST APIs.
Built a privacy-first mobile app featuring One-Tap SOS, Fake Incoming Call, and Instant Emergency Dialing (112, 100, 108).
Engineered an on-device AI (Native Kotlin DSP) to detect distress audio without uploading raw voice data.
Originally integrated real-time SMS and live GPS tracking via Supabase; currently running on Mock APIs for public demo safety.
Live Demo: https://stunning-kelpie-0e6a06.netlify.app
GitHub: https://github.com/AntonyJenish-r/aegis-app | (SMS & Backend evidence available in Portfolio)

Object Recognition Using Deep Learning (Python, Deep Learning, CNN, Computer Vision - Ongoing)
• Developing an object recognition system using deep learning techniques.
• Working with image processing, model training, and object classification.
• Final-year mini project currently under development.

INTERNSHIPS

Data Analytics Intern - MATT Engineering and Solutions, Nagercoil (Jan 2025 - Feb 2025 | 1 Month)
• Gained hands-on exposure to real-world data analytics workflows.
• Worked with structured datasets for analysis and interpretation under the guidance of experienced analysts.
Data Science Intern - Kashiv, Chennai (30 Days)
• Gained practical exposure to data science concepts and analytical workflows.
• Worked with data preprocessing, analysis, and basic machine learning techniques.
• Developed an understanding of data-driven problem-solving approaches.
Deep Learning Intern - Alric Infotech, Kerala
• Gained practical exposure to deep learning and computer vision concepts.
• Explored data preparation, model training, and image-based analysis workflows.
• Developed an understanding of workflows used to build deep learning-based solutions.

CERTIFICATIONS & TRAINING

Infosys Springboard: Spring 5 Basics, Spring REST, Spring Data JPA, Continuous Integration and Delivery (DevOps)
NextWave: Python Programming, HTML & CSS, Database Management Systems (DBMS)
Network System: Python Programming, Machine Learning

CURRENTLY LEARNING

Flutter & Dart - Self-Learning
